Can You Block a Scene in 30 Seconds?

Shot Designer makes it ridiculously easy to block complex scenes, complete with Camera Diagram, Animation, Shot List, Storyboards, Director's Viewfinder, and Sync & Team Sharing via Dropbox.

Neither Camera Diagrams, Shot Lists, Storyboards, or Animation by themselves give you a satisfying understanding of camera-blocking -- you have to use them together. Shot Designer gives you a superior understanding of your scene, and is the ultimate Director's creativity tool.

A Camera Diagram That Makes Itself

Shot Designer dramatically speeds up the Director's process of making camera diagrams.

Shot Designer is **FAST**. The app knows how Directing works and does most of the work for you -- like automatically moving cameras when you move characters.

Shot Designer is fast enough that you can use it with even with actors waiting!

FREE / PRO VERSION

Shot Designer is free to use on a single scene at a time. \$19.99 Pro Upgrade adds File Management, Mac/PC Pro Version, Sync & Team Sharing via Dropbox, PDF/Excel Export, Scene Freeze, and more.
